

INDUSTRIAL DIRECTORY

2026

Introduction

We are thrilled to share the 2026 Brantford Industrial Directory with you. It represents a significant data achievement for our community.

Compiled following a full census of our industrial community (the first of its kind in over 15 years), it is the result of countless visits, phone calls, email and follow-ups by Economic Development staff and Rick McFadden, our contracted outreach professional. It lists 382 companies located in industrial areas of Brantford who took the time to complete our profile form.

With trade uncertainty and the threat of tariffs, maintaining an accurate, up-to-date Industrial Directory is extremely important and represents several key advantages for businesses and our community. It allows our team to effectively connect with, support, and advocate for businesses and the crucial sectors they represent. It provides a means of networking, communication, and supply chain building between local companies. It becomes a key source of high-level data for potential developers and investors looking at Brantford. It helps the City understand our industrial profile make informed decisions about development and growth.

Due to confidentiality as well as respect for each company listed, we are unable to share all the details for these businesses. For example, individual contacts and general email addresses are not included in this release. We are also not able to make this available in a format such as Excel or CSV that can be easily data mined or sold.

The information presented here is as accurate and complete as what was provided by each company. As a result, the City of Brantford is not responsible for the accuracy, currency, or relevance of this data. We have taken steps to standardize the data (e.g. remove all caps or properly format postal codes).

However, the Economic Development team feels it paints a clear picture of the industrial sector in Brantford in 2026. For that reason, we are grateful to share it with you as well.

Reach out to our team at any time if we can support your industrial business here or help your search for space in Brantford.

Regards,

Kevin Dekok
Senior Economic Development Officer
