

How should I set out my cart for collection?

- Place the cart at the curb with wheels toward your home
- Cart lid must be fully closed to minimize litter, reduce odour, and protect materials from weather conditions
- During winter conditions, place the cart on a flat surface clear of any snow and ice
- Materials that are not placed inside the cart will **not** be collected

Keep at least:

- 1.5 metres clear beside the cart
- 1 metre clear behind the cart
- 3 metres clear above the cart

Recycling safety

Keep items like batteries and electronics out of your curbside recycling. Batteries can cause fires and harm workers.

There are specialized programs in Alberta to collect these items and ensure they are recycled safely.

If it lights up, beeps, buzzes, or charges, it probably has a battery and doesn't belong in your household recycling.

circularmaterials.ca/batteries

Your recycling program will be managed by Circular Materials, in partnership with the City of Lethbridge.

There is **no cost** to residents or the municipality for this service.

Lethbridge Loop App

Download the free Lethbridge Loop app for collection schedules, reminders and sorting information.

- Search the Waste Wizard to find out what's in and what's out
- Access up-to-date collection schedules
- Set collection reminder notifications

Scan the QR code to download the app for Apple and Android devices.

Find a depot

Your extra or oversized recycling can be dropped off at a depot.

Find your nearest depot location!

How to recycle

- ✓ Have your materials out to the curb for collection by **7 a.m.**
- ✓ Flatten cardboard to no larger than **60 x 90 cm**. Place **loose** in your bin
- ✓ Ensure containers are **dry, empty, and clean**
- ✓ Remove lids from **glass containers**, leave lids on all other containers
- ✓ **Do not** put garbage and organics in with your recyclables

Recycling gives materials a second life, conserve natural resources, and protects our environment for future generations.

You can use clear bags to bundle recyclables. Bag shredded paper and packing peanuts separately. Keep cardboard loose.

Black bags don't belong in your recycling.
