Municipality of North Perth Responds to Cybersecurity Incident

North Perth, November 26, 2025 – The Municipality of North Perth is looking into a cybersecurity incident that we discovered on November 25, 2025. As soon as we became aware of it, we took steps to secure our systems, including taking some systems offline to stop any further unauthorized access.

We are working with cybersecurity experts to help contain the issue, restore our systems, and understand exactly what happened.

The investigation is still in the early stages. If we learn that any personal or sensitive information was affected, we will contact those involved in accordance with all legal requirements.

This is a top priority for the Municipality, and we are working hard to resolve the situation safely and as quickly as we can. We will share more updates as we have them.

For questions, please contact:

Kriss Snell, Chief Administrative Officer
Municipality of North Perth
