1.0 2027 Overview

2027 represents a major transition for Ontario's conservation authorities. In December 2025, the Province announced the consolidation of the 36 conservation authorities into nine regional bodies. As part of this restructuring, the Otonabee Region Conservation Authority will join the Eastern Ontario Lake Regional Conservation Authority, alongside six other authorities.

To support the Province of Ontario and their objective for consolidation during this transition, conservation authorities were directed to develop and approve a 2027 operating and capital budget. Given the upcoming municipal election in October, advancing this process now is seen as prudent and transparent.

Over the past four years, Otonabee Conservation has worked diligently on behalf of its member municipalities and watershed residents to build a financially stable and resilient organization.

Levy increases have been reasonable, while maintaining a strong focus on high quality programs, services, and customer service.

The proposed 2027 operating budget reflects a 0% increase, primarily offset by new external revenues. A draft four-year capital budget was presented to the Board of Directors at the September 25, 2025 meeting for information and consideration in future budget cycles. The 2027 capital budget reflects the same information.

Overall, this budget package is modest, stable, and fiscally responsible. It clearly identifies the resources required to deliver programs and services effectively and efficiently during this period of significant organizational change.

A person wearing a blue cap, a blue and yellow shirt, and grey waders is using a long pole to clear a stream in a forest. The person is standing on a log and reaching into the water. The background is a dense forest with green foliage. The image is split into two main sections: the top left shows a close-up of a rocky stream bed, and the bottom right shows a wider view of the person working in the stream.

Our Vision

As guardians of our local water and natural environment, we promote resiliency to change, foster community stewardship, and provide outdoor recreational opportunities to support healthy living.

Our Mission

- Protect people and property through informed decisions and actions, information sharing, and facilitating solutions-based outcomes.
- Foster and encourage stewardship of the natural resources people rely on by learning from and working with our watershed community.
- Protect and manage conservation lands, trails, services for public enjoyment and to promote activity that contributes to healthy living.

Our Values

- **People First** - residents, businesses, clients, and staff are valued & listened to with an open mind.
- **Professionalism** – our actions are reliable, consistent and trustworthy. Collaborative – solutions-based teamwork is a keystone of our success.
- **Continuous Improvement** – we strive to do our utmost & seek out opportunities to progress.
- **Fiscally responsible** – being accountable and transparent in all we do.

2027 Budget Format

The Otonabee Conservation Authority has four program and services areas:

- Natural Hazard Protection Program
- Conservation Lands Program
- Watershed Management Program
- Corporate Services

The program areas are reported in accordance with the categorization as required by Regulation 687/21.

Conservation Authorities Act Regulations

Otonabee Conservation's Programs and Inventory was approved on June 2022 to meet the regulations:

- Ontario Regulation 686/21:
Mandatory Programs and Services
- Ontario Regulation 687/21: Transition
Plans and Agreements for Programs and Services

Categorization of Programs and Services as per Regulation 687/21

Category 1. Mandatory programs and services defined in regulations where municipal levy can be applied.

Category 2. Municipal programs and services at the request of a municipality.

Category 3. Other programs and services an Authority determines important and can use municipal levy if required through an agreement with participating municipalities.

1.2 Overview of Operating Budget

Otonabee Conservation is committed to working collaboratively with our member municipalities and to understand the financial pressures face by watershed residents. We strive to be a trusted partner in the watershed, delivering valuable services and programs that support our communities.

The total proposed 2027 operating budget is \$3,456,991 which includes a municipal apportionment of **\$1,537,757**. This incorporates Category 3 expenditures of \$47,731 which represents 3% of municipal operating apportionment.

Key component of the proposed budget include:

- Step increases and a COLA of 1% for staff salaries
- Additional external Category 2 revenues
- Status quo for all other budget lines

The primary objectives of the proposed budget are to:

- Safeguard programs and services in our community during the consolidation
- Support the Authority staff to ensure local knowledge and expertise is retained

These small changes to the 2027 operating budget are designed to ensure continuity and continued customer service is delivered throughout the watershed.

1.4 Overview of Capital Budget

The proposed 2027 capital budget is \$115,000, distributed across the eight member municipalities. This is the same levy as 2026, which means there is no increase for 2027.

In September 25, 2025, four-year draft capital budget was brought to the Board of Directors for information and consideration. All the draft budgets remained within the same levy and stepped out the capital projects which first focused on reducing the liabilities in the conservation areas.

If these historical assets which are deteriorating quickly are not addressed, they will continue to pose an increasing risk to the Authority.

There is a continuation of a modest allocation to the capital reserve to assist with future financial sustainability.

1.5 Capital Budget

Program Area & Description	Project Cost
Category 1	
Warsaw Caves Conservation Area Equipment Replacement	30,000
Imagine The Marsh Re Development	50,000
Signage - Directional and Regulatory	5,000
Dams Maintenance	5,000
Contribution to Capital Reserves	15,000
General Operating	
Corporate Services - IT and field equipment	10,000
Total	\$115,000

2.0 Natural Hazards Program

2.1 Plan Review and Permitting Services

Deliver the Authority's permitting responsibilities, ensuring compliance to Ontario Regulation 167/06 and related policies, timely customer service and appropriate enforcement action meet the Authority's delegated responsibility to represent the provincial interest in natural hazards through timely engagement with member municipalities in the review of applications under the Planning Act.

2.2 Natural Hazards Mapping

Acquire and manage information about natural hazard areas. These objectives align with the provincially mandated program and services regulation. In the past the Authority has undertaken flood plain mapping on a project basis. The provincially mandated program and service regulations directs conservation authorities to undertake studies to delineate and map hazard areas and to develop plans and policies to guide appropriate management and use of hazard lands.

2.3 Natural Hazards Operations

Operate a flood forecasting and warning system to ensure residents and municipalities are aware of potential flood related events in a timely manner, and during storm events support municipally led emergency response. Monitor watershed conditions to detect low water conditions and support the Low Water Response Team to respond to low water events. Deliver water safety and natural hazard related education programs. Operate and maintain water and ice control structures and public safety measures are in place.

2.4 Natural Hazard Protection Program

Natural Hazards Protection Program

3.0 Conservation Lands Program

3.1 Conservation Lands Management

Manage and maintain land owned by the Authority for natural heritage protection.

Undertake resource development (i.e., forest management) on land owned by the Authority.

Undertake land management activities on lands owned by the Authority for recreation purposes.

3.2 Beavermead and Warsaw Campgrounds and the Peterborough Marina

Otonabee Conservation manages two campgrounds Beavermead Campground and Warsaw Caves Campground, and provides conservation area day-use activities, group camping, public camping, and seasonal camping. Operations also include canoe rentals and retail sales such as ice and firewood.

In 2026, Otonabee Conservation assumed management of the Peterborough Marina through an agreement with the City of Peterborough. The operation of Beavermead Campground and the Peterborough Marina supports the delivery of non-mandatory municipal programs and services.

4.0 Watershed Management Program

4.1 Drinking Water Source

Implement the policies of the Trent Source Protection Plan and meet the requirements of the Clean Water Act for those obligations that have been assigned to Otonabee Conservation for implementation.

Support municipalities in the Otonabee-Peterborough Source Protection Authority to implement the policies of the Trent Source Protection Plan and meet the requirements of the Clean Water Act.

Provide Risk Management Office function and education and outreach services aligns with municipal mandatory programs and services.

4.2 Natural Hazards & Monitoring

Fulfill the Authority's obligations in its Partnership Agreements with member municipalities to provide technical review and expertise on natural hazards matters which assist the municipality in making environmentally sound decisions on Planning Act applications.

At the request of member municipalities, undertake post-development monitoring programs, other research and technical studies.

Implement provincial water quality & groundwater quantity monitoring programs.

4.3 Land Stewardship Services and Consideration Education

Foster awareness of the watershed environment and watershed health.

Support landowners to undertake land restoration and stewardship activities on their lands that enhances the natural environment. Support environmental education through a variety of experiential learning opportunities.

Support landowners to undertake land restoration and stewardship activities on their lands that enhances the natural environment.

Objectives for education and stewardship services align with Category 3 programs and services.

6.0 Proposed 2027 Municipal Apportionment

Otonabee Conservation's Board of Directors considered and approved an operating budget in accordance to legislation. Funding for the expenditures comes from a variety of sources including a municipal levy.

The levies are apportioned to member municipalities based on the ratio that each participating municipality's modified assessment bears to the total Authority's modified assessment. The modified assessment values are provided annually by the Ministry of the Environment, Conservation and Parks.

The following table provides detailed information on how the levy is apportioned to the member municipalities.

2026 Municipal Apportionment				
Municipality	Modified CVA Based Apportionment %	Municipal Apportionment - Operating	Municipal Apportionment - Capital	Total Municipal Apportionment
Asphodel-Norwood	2.85%	\$43,826	\$3,277	\$47,102
Cavan-Monaghan	7.39%	\$ 113,659	\$8,500	\$122,159
City of Peterborough	58.43%	\$898,448	\$67,190	\$965,638
City of Kawartha Lakes	0.67%	\$10,373	\$776	\$11,149
Douro-Dummer	7.50%	\$ 115,355	\$8,627	\$123,982
Otonabee-South Monaghan	5.75%	\$88,376	\$6,609	\$94,985
Selwyn	17.38%	\$267,303	\$19,990	\$287,293
Trent Hills	0.03%	\$417	\$31	\$449
TOTAL	100.00	\$1,537,757	\$115,000	\$1,652,757

2027 Proposed Municipal Apportionment				
Municipality	Modified CVA Based Apportionment %	Municipal Apportionment - Operating	Municipal Apportionment - Capital	Total Municipal Apportionment
