

Verona Housing Water and Wastewater Servicing Class EAs

Public Information Meeting No. 3

Comment Sheet

The Township of South Frontenac wants to hear the community's comments, questions, and concerns regarding the proposed drinking water and wastewater servicing to the proposed housing development in the Village of Verona. Please fill out this comment sheet to document your feedback. All comments received will be considered in the Class EA process.

1. This study is following the steps and requirements of the Municipal Class Environmental Assessment process for Schedules B and C Class EAs. This is the third public information meeting that has been undertaken to provide updates on the project. *Do you have any questions, comments, or concerns about the evaluation and public consultation process?*

2. The preferred solution of a new groundwater well complete with treatment and storage was determined based on the projected demands from the proposed housing development. *Do you have any questions, comments, or concerns about the preferred drinking water servicing solution?*

3. The preferred solution of a wastewater treatment and subsequent subsurface disposal system was based on the projected contributions from the proposed housing development. *Do you have any questions, comments, or concerns about the preferred large subsurface sewage disposal system?*
