

Wasaga Beach 2026 Municipal Election Results Delay:

The online voting system uses robust security and multiple safeguards to verify data across three backup servers. During routine monitoring of the online tabulation process, an automated alert triggered an additional system review. This built in process is designed to identify and investigate any alerts and confirm that the system is operating as intended.

After reviewing all three servers and confirming there was no error in the systems operations, we processed the ballots and merged the results with the tabulator results. The systems safeguards acted exactly as intended which requires time to review. We apologize for any delay and appreciate your patience as we took the time to validate the results.

We also want to be clear that this delay was not the result of any action or issue involving the Town of Wasaga Beach, its staff or the clerk's department. Town staff, and particularly the Clerks election team were professional, prepared, and responsive throughout the process and fulfilled the responsibilities exceptionally well.
